REISSUE APPLICATION DECLARATION BY THE INVENTOR	Docket Number (Optional) 19.0266
--	-------------------------------------

I hereby declare that:
Each inventor's residence, mailing address and citizenship are stated below next to their name.
I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,394,193, granted May 28, 2002 and for which a reissue patent is sought on the invention entitled Downhole Adjustable Bent Housing for Directional Drilling
the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.
I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

An error has occurred in that the patentee has claimed less than he had a right to claim in the patent. Specifically, claim 17 was written to include elements and relationships between the elements that are not believed necessary to patentability. For example, patentability does not require recitation of a mandrel extending between said first and second housings and through said connector, or an articulating member with a deviated passage as recited in the issued claim 17. Accordingly, claim 17 has been amended to remove these elements and broaden the subject matter claimed. The amendments are fully supported by the specification in, for example, Figures 2A-2D, column 6, lines 34-67; column 7, lines 1-45; and column 8, line 41 through column 11, line 41.
